

Student Research Opportunity

The PAVE Center is focused on quantifying value from the patient perspective and translating this to value assessment.

Student Researchers will:

- Join a research team comprised of faculty, staff, and trainees.
- Gain mentored research experience in stated preferences, HEOR and PCOR with potential for research dissemination through publications or conference presentations.

Requirements:

- Rising P2 or P3 students
- HIPAA and CITI training completion before start date

To apply, email your CV and letter of interest by May 19:

Susan dosReis, PhD
Julia F. Slejko, PhD
